Education

Georgia State University, B.S. in Computer Science, Atlanta, GA **Expected May 2028**
Awards: Second place in GSU 2026 math competition, LEAP Scholar, WomenLead Scholar, SAA Award **GPA: 4.23/4.00**
Relevant Coursework (CS): Data Structures & Algorithms, Machine Learning, Discrete Mathematics, OOP, Linear Algebra, Statistics & Probability, AP Physics (Semiconductor Electronics), Advanced Chemistry (Organic & Physical)

Technical Skills

Languages / Web: Python, SQL, Java, JavaScript, TypeScript, C++, R, HTML, CSS
Tools / Databases: Git, GitHub, Microsoft Excel, Microsoft Azure, VS Code, Google Sheets, Figma, Copilot
Frameworks / Libraries: Pandas, NumPy, Tableau, BigQuery, Flask, .NET, React, TensorFlow, PyTorch
Certifications: Intro to Cybersecurity (CodePath), Web Development (CodePath), CS50: Intro to Computer Science (Harvard)

Experience

Technical Recruiter June 2025 – Present
Teknoz Software Solutions LLC *Atlanta, GA*
- Reviewed 100+ résumés, shortlisted 45+ candidates using a GPA-based ranking system, and delivered hiring recommendations
- Coordinated 120+ interviews, tracked outcomes, and maintained recruitment records for efficiency and audit readiness
- Managed onboarding for 45+ hires, handling documentation, HR coordination, and first-day preparation

Student Assistant Nov. 2025 – Present
UAC Center, Georgia State University *Atlanta, GA*
- Supported advisors with scheduling appointments, student records, and advising operations; assisted project coordination
- Executed projects with 20+ team members: data organization, outreach prep, and process improvements
- Managed front desk and call center inquiries, resolving 55,000+ student questions with 99% positive feedback

Projects

Preggo Pillow | *1st Place Winner & MLH Best Use of Presage* | Figma, Claude API, Go, Raspberry Pi 5 September 2026
- Collaborated on an AI-powered wearable pillow designed to detect changes in fetal movement patterns using multi-sensor accelerometers, acoustic sensing, and maternal-motion reference data
- Contributed to fetal and maternal health research, translating clinical considerations into project design and communication; supported the demo video and visual branding
- Presented at HackHERS 2026, demonstrating a prototype with 29/30 kick detection, 0 false positives across 20 maternal-motion tests, and 306 automated tests passing under the Go race detector

śloka | *Python, JavaScript, React, Figma, FastAPI* December 2024 – Present
- Developed an interactive learning platform using React, Python, and FastAPI, combining guided exercises, storytelling, and animations to make Hindu slokas and Vedic traditions accessible to younger audiences
- Conducted user testing with 30+ individuals, achieving 95% positive responses to animations and interactive learning
- Increased regular platform usage by 50+ users within two weeks through iterative content, animation, and UX improvements

Outlens | *RAG, TypeScript, Next.js, Gemini API, MediaPipe, WebGL* October 2026
- Built solo in 28 hours a real-time computer vision app that outlines, names, and reads aloud object colors for color-blind users
- Replaced a 12-second ML model with an on-device CIELAB region-growing algorithm (∼50 ms) plus WebGL color correction
- Integrated Gemini and ElevenLabs APIs with structured JSON, server-side keys, and safety filters; built a RAG voice assistant that answers color-vision questions from a curated knowledge base using embeddings and vector search, with cited sources

Leadership Involvement

Executive Lead, Marketing & Communications August 2026 – Present
Girls Who Code, Georgia State University *Atlanta, GA*
- Helped organize and promote a hackathon with 60+ attendees, connecting students with industry panelists and sponsors while driving participation and encouraging students to engage with technical opportunities

Director of Communications & Marketing June 2026 – Present
Hindu YUVA, Georgia State University *Atlanta, GA*
- Dedicated 5+ hours weekly to organizing and promoting cultural events with 50+ attendees, while creating social media campaigns that grew the organization's network by nearly 100 followers in a single day

SAA Ambassador Nov. 2025 – Present
Student Alumni Association, Georgia State University *Atlanta, GA*
- Represent Georgia State University as a Student Alumni Association Ambassador, participating in university events, student engagement initiatives, and campus community activities, bridging the gap between students and alumni
